PHYSICAL DESCRIPTION: Describe present appearance of structure/site, then contrast and compare that with it's original appearance, noting additions, alterations, and changes in materials. Discuss significant architectural features.

This one story rectangular wood frame residence has an intersecting gable and hip roof. Other features include two stretcher bond brick chimneys with corbeled caps, one exterier with stepped sides, one interior pent roof partial gable returns, a gable roof enclosed 1/3 front porch with gable end pent wood overlap siding with wide watertable board, 3/1 and 4/1 double hung windows and wood and plass manel front door. Modern materials include asphalt roof shingles. In back is a full basement entrance below the watertable board, and a first floor entrance with open wooden steps. An architectural significant feature is the gable end pent.

This is a contributing structure.
