PHYSICAL DESCRIPTION: Describe present appearance of structure/site, then contrast and compare that with it's original appearance, noting additions, alterations, and changes in materials. Discuss significant architectural features.

This one story wood frame residence has an intersecting gable roof, a hip roof rear addition and shed roof patio, and a small gable roof front door awning. Other features include interior brick chimney, elongated eaves, purlins, and exposed rafters, 1/1 double hung windows and a large rectangular front fixed window with four light side lights. There is a partial sandstone block foundation. Modern materials include asphalt roofing, masonite siding, a fiberglass patio roof to the rear, and a new cement foundation. Out-buildings include, 1. A large metal gable roof double car garage with a wood panel rising door, and a cement foundation. 2. A Wood frame gable roof garage with asphalt roofing, wood board siding, and vertical wood casement hung garage doors. 3. Three shed roof and gable roof garden sheds, wood board, bevel edged and overlap siding, assorted wood doors and multilight slide windows.

This is a neutral structure.

INTEGRITY: Assess the degree to which the structure/site, and surrounding area accurately convey the historical associations of the property. This house is located in a block of old and new residences, and across the street from a 1/2 block of all modern structures. This house has been enlarged and added to many times. The front porch was removed and a cement slab poured. The front room enlarged and modern windows added. Remodeling has caused loss of design and materials integrity.  INFORMATION VALUE: Explain how the extant structure/site may demonstrate or yield information about its historic use or construction.  APREPARED BY:  Elizabeth Jood  August 5, 1983  GEOGRAPHICAL INFORMATION:  Acreage: less than 1 acre USGG Quadt_Roundup  UNTWE:	and surrounding area lend the property significance.	ns, important events, and/or historical patterns associated with the structure/site
This house is located in a block of old and new residences, and across the street from a 1/2 block of all modern structures. This house has been enlarged and added to many times. The front porch was removed and a cement slab poured. The front room enlarged and modern windows added. Remodeling has caused loss of design and materials integrity.  INFORMATION VALUE: Explain how the extant structure/site may demonstrate or yield information about its historic use or construction.  IPREPARED BY:  Elizabeth Mood  SS: Box 12, Roundup  August 5 1983
